

Samuel Packaging Systems Group, part of the family of Samuel companies, is a leader in the design, manufacturing and distribution of packaging, unitizing and product identification solutions.

EQUIPMENT SOLUTIONS FOR METAL SERVICE CENTERS

Samuel Packaging Systems Group specializes in the design and manufacturing of custom automatic strapping machines and material handling solutions for the metal processing industry. Applications ranging from slit coil banders in service centers, to circumferential and through-the-eye banders for large coils, are successfully used around the world.

Features

- Seal-less, seal type, spot weld strapping heads
- Manual and pneumatic strapping tools
- Electric, hydraulic and pneumatic configurations
- AAR approved equipment
- Steel and plastic strapping
- Preventative maintenance programs
- On-site service technicians
- 24/7 performance and reliability

YOUR SUCCESS IS OUR BUSINESS

PACKAGING SYSTEMS GROUP

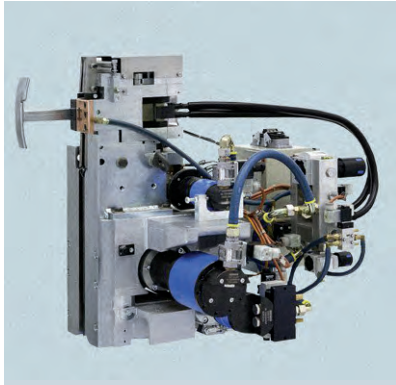

Hydraulically actuated down ender

Coil ID & OD pickup fingers

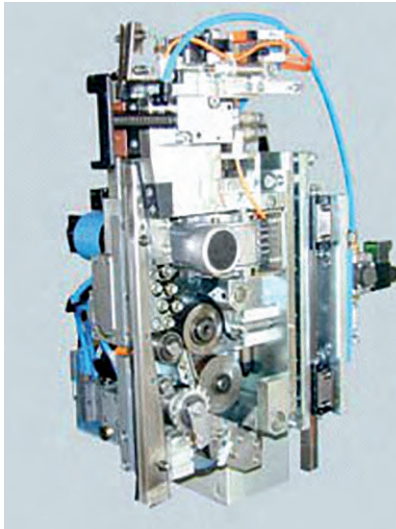

Coil Centering Stacking Conveyor

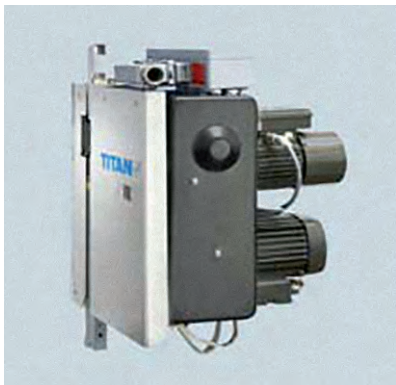

VS32 STEEL STRAPPING HEAD

- For use with steel strapping up to 1-1/4" wide
- Double Spot weld joint, up to 90% efficiency
- Pneumatic configuration
- No transfer of heat onto the package during the welding process

VS11/12 STEEL STRAPPING HEAD

- For use with steel strapping up to 3/4" wide
- Achieve up to 90% joint efficiency
- Available in sealless and spot weld joint
- Full penetration welding even in case of corroded and lacquered straps

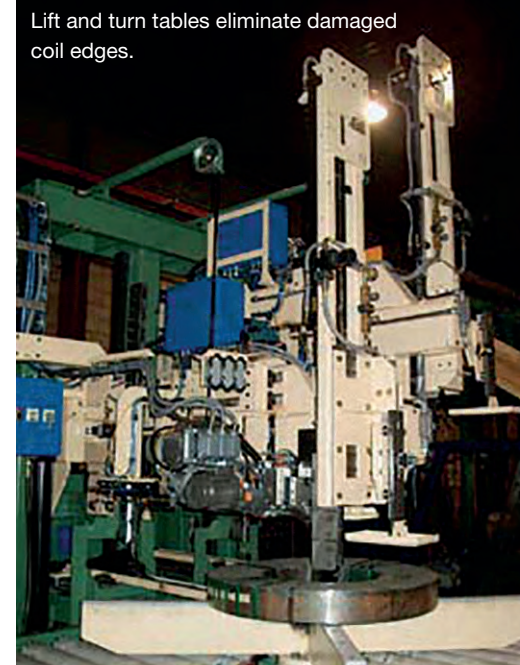

VK 30 POLYESTER STRAPPING HEAD

- Heavy duty strapping head
- Direct drive system delivers high tension with no belts or clutches
- Fastest heavy duty strapping head on the market
- Precision thermocouple heater-blade control allows consistent seals regardless of ambient temperature

Fully customized non-ferrous metal applications for packaging and material handling for aluminum, brass and copper.

Lift and turn tables eliminate damaged coil edges.
