

California Proposition 65 Declaration

Dear Valued Customers,

This declaration is to inform customers of Sierra Aluminum Company (Sierra) that extrusions produced by Sierra contain chemicals listed on California's Safe Drinking Water & Toxic Enforcement Act of 1986. This Act, commonly known as Proposition 65, establishes a list of chemicals which the state of California's risk assessment process has determined to present a risk of cancer, birth defects, or other reproductive harm.

Chemical exposure typically occurs through inhalation, ingestion, and/or absorption. Our extrusions are not intended to be eaten or inhaled, and will not be absorbed through the skin under normal conditions. Unfortunately, Sierra cannot foresee all the ways our extrusions may be used (both intended and unintended) and to what extent this may create an exposure risk. Sierra has chosen to provide a warning based on its knowledge about the presence of one or more listed chemicals without attempting to evaluate the level of exposure. Extrusions sold by Sierra may contain listed chemicals at levels that are below the Proposition 65 level of concern, or could even be zero. However, out of an abundance of caution, Sierra has elected to place the Proposition 65 warning notification on its extrusion packaging beginning on August 30, 2018.

OUR WARNING LABEL:

WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov.

Listed Chemicals present or potentially present in Sierra extrusions are:

Mill Finished or Anodized Extrusions:

Lead

Painted* Extrusions:

Chromium VI compounds, Titanium Dioxide, Carbon Black, Quartz

* Additional chemicals that may be present in the paint depending on color and resin system.

The Proposition 65 chemical list can be found at <http://www.P65Warnings.ca.gov>
