Re: EU Directive 2015/863 (RoHS 3)

Dear Customer:

Sierra Aluminum, A Division of Samuel, Son & Co. (USA), Inc. manufactures aluminum extrusions in 6063, 6061, and 6005A alloys. Each alloy meets its respective Aluminum Association specification with regard to chemistry. None of the alloys Sierra Aluminum Company uses requires the addition of any of the ten restricted substances listed in EU Directive 2015/863 and Sierra Aluminum Company does not intentionally add them nor has it ever added them.

This letter applies to all mill finish and anodized aluminum extrusions.

If you have any questions, please contact me at (951) 781-7800.

Sincerely,

Richard Medina

Environmental Health & Safety Manager
