

Founded in 1855, Samuel, Son & Co. is a family-owned and operated, integrated network of metal manufacturing, processing and distribution divisions.

With over 4800 employees and 100+ facilities, Samuel provides seamless access to metals, industrial products and related value-added services.

ITAR COMPLIANCE EXPERTISE

Any products that are manufactured for military or defense purposes typically trigger compliance protocols related to the International Traffic in Arms Regulations (ITAR). All members of the supply chain for goods and services covered under the United States Munitions List must be ITAR-compliant and registered with the U.S. State Department's Directorate of Defense Trade Controls (DDTC).

U.S. customers in the aerospace, shipbuilding and other defense related industries will be familiar with these regulations and know the compliance burden associated with manufacturing and exporting defense-related products versus products with regular commercial or industrial applications.

Samuel's ITAR Compliance Program was reviewed by the DDTC in October 2016. Samuel has taken a pro-active approach to meet requirements for ITAR manufacturing and have obtained favorable rulings by the government in declaring some of our custom-made products as not being subject to the ITAR. This helps alleviate the burden of ITAR controls for our customers.

The Samuel Advantage

Samuel's expertise with ITAR helps reduce the compliance burden for our customers and allows them to source both commercial and defense-related product from one supplier.

YOUR SUCCESS IS OUR BUSINESS
