Sierra Aluminum Company achieves certification to ISO 9001:2015 International Standard for Quality Management Systems

Sierra Aluminum Company, a manufacturer of standard and custom aluminum extrusions, has achieved certification to ISO 9001:2015 International Standard for Quality Management Systems for its extrusion, finishing, and thermal improvement of high-quality aluminum profiles for various applications.

Our ISO 9001:2015 certificate was awarded by the British Standard Institution (BSI), a globally recognized and an accredited Certification Body (CB), which has headquarters in London, United Kingdom. With 84,000 clients in 193 countries, BSI is one of the most respected and reputable Management Systems Certification Bodies in the world.

ISO 9001:2015 International Standard provides a recognized framework for implementation of a robust Quality Management System which helps companies ensure that products and services consistently meet customers' requirements, as well as meeting all statutory and regulatory standards.

In Sierra Aluminum's case, this will help to optimize operational efficiency, lower costs, increase profitability, and consistently maintain high product quality and customer satisfaction. Certification to ISO 9001:2015 international standard reflects our dedication to continual improvement to provide best value to our customers. It will bring numerous benefits, including helping us to expand our market, as well as enter new markets and partnerships.

Achieving certification to ISO 9001:2015 international standard is a credit to everyone at Sierra Aluminum Company and clearly demonstrates our commitment to excellence in our products and services and being a more sustainable organization that can build long-lasting collaborative relationship with our customers.

The team at Sierra Aluminum Company is proud of achieving this major milestone and meeting all the challenges in implementing an effective Quality Management System that serves as one of the pillars of our business and enables us to sustain our current market share, as well as opening new business opportunities.
