

MODEL STL-PT

Pneumatic Tensioner for Round or Irregular Shaped Applications

STL-PT

The STL-PT is a pneumatic tensioner for round or irregular shaped applications. The STL-PT provides the highest possible tension in the market. Once tensioning is complete, the air line can be removed and connected to the STL-PS, and no strap tension is lost. The STL-PT is ideal for use in steel service centers or round surface applications that require high tensile steel strap and high tension.
